Work Experience

TechBairn Research Pvt. Ltd.

Feb 2024 - PRESENT

Web Developer || Internship

Remote

- Taught myself **Spring Boot** and implemented a Cart System in their website which resulted in a **12% increase** in sales of their courses.
- Built payment system by integrating Razorpay API.
- Developed a log system to store details of all the successful and failed attempts at **payment** which greatly **helped the sales and marketing team**.
- Built fully responsive pages for their website.

UNICompiler

Jul 2022 - Aug 2022

Frontend Developer || Internship

Remote

- Built a calculator, a sample portfolio website and a quiz app as projects

Projects

ShareYourFiles

(ReactJs, CSS, NodeJs, ExpressJs, MongoDB) || [Code](#) || [Live-Site](#)

- Developed a “FileSharingApp”, where one can upload their files and get a public download link for the same.
- Utilised Netlify to host the WebApp

LineUp

(Next.js, Typescript, TailwindCSS) || [Code](#)

- Built this website where people can signup and create and manage their courses
- Enhanced project efficiency by using serverless Next.js therefore reducing API call times

KSTAR

(React.js, Typescript, TailwindCSS) || [Live-Site](#)

- Developed a fully responsive landing page for a website for an event (kstar) in my university (KIIT).
- The website helped with the applications and marketing of the event.
